

## Quality Policy

Navillus Strategies, established 2023, provides IT strategy and cyber security consulting services to our clients.

We assist our customers with strategic design, implementation, and deployment of robust IT services, underpinned with robust Cyber Security solutions. Our goal is to deliver IT systems and processes in alignment with assisting clients achieve their business goals and objectives by implementing IT solutions in the most efficient manner, all whilst ensuring their information assets and systems are protected from cyber threats in alignment with their risk profile.

Since assignments may require varying technological solutions, Navillus Strategies operates with highly skilled professional consultants. In this way, the necessary skill and experience for successful solutions is always available. Our personnel develop strong long-term working relationships with our clients.

Navillus Strategies comply with all aspects of the BS EN ISO9001 International Standard for Quality, as well as other legal and applicable requirements. All staff understand the importance of quality and abide by the procedures outlined in the Quality Management System, and maintain the culture of continuous improvement.

The management of Navillus Strategies are fully committed to Quality and have resolved to continually improve the QMS using a number of internal top level and strategic objectives, the framework of which is defined by the strategic direction of the business.

This Policy and the measurable objectives outlined above are continually reviewed for suitability at Management Review Meetings.
